PROFESSIONAL SUMMARY

I am currently in my penultimate year studying Software Engineering and aspire to learn more surrounding the software industry, and gain valuable exposure and experience in a corporate environment. I am a hardworking and passionate student who is eager to learn and I hope to obtain the opportunity to use my skills in a productive industry setting.

WORK EXPERIENCE

The Good Home, Christchurch — *Bartender*

MAY 2022 - PRESENT

- Perform opening and closing duties, and set up for incoming shifts.
- Handle simultaneous customer, team, and business needs while avoiding unnecessary delays.
- Polish glassware, bus tables, serve drinks, and remove debris to keep customer areas clear.

New World, Palmerston North — *Online Assistant*

SEPTEMBER 2019 - JANUARY 2022

- Completed customer grocery orders and fulfilled special requests or needs, depending on customer requirements.
- Contacted various customers daily to discuss order specifications.
- Delivered customer orders over various areas within Palmerston North.

EDUCATION

University of Canterbury, Christchurch — *Bachelor of Software Engineering with Honours*

FEBRUARY 2021 - PRESENT

I am currently in my third year of studying and expect to complete my studies in November 2024. I am a keen student who has joined several clubs within the last three years of studying at the University, and I am also involved in the executive committee for the Computer Science Society.

Continuous Integration / Continuous Deployment

Testing Frameworks: JUnit, Cucumber, Mockito, Playwright

Object-Oriented Programming (OOP)

Source and Version Control: Git, GitHub, GitLab

SQL Databases

Linux and Bash

EXTRACURRICULAR

CompSoc General Executive - As a General Executive and Assistant Social Media Representative, I've honed leadership, teamwork, event planning, and project management skills while expanding my network through interactions with diverse peers and professionals.

House Captain - Being voted in to represent my house as the house captain in high school provided me with great leadership and public speaking experience.

Peer Support Mentor - Being a peer support mentor to juniors at my high school was a challenging experience that enhanced my communication skills and provided valuable insights into diverse learning styles and abilities.

Basketball Coach - This opportunity

Hopper— *Team Analytics Web Application (In progress)*

This project is a multi-user web application that I am currently working on with a group of seven other individuals. For the period of time that I have been working on this project, it has given me valuable experience working within an agile team, and has highlighted the importance of effective communication in order to deliver a viable product.

Timer — *Discord Timer Bot*

During my years of playing a specific mobile game, I noticed the lack of ease-of-use applications used to time the bosses within the game, and so I developed this discord bot for the community discord server, and it is still currently in use by an estimated 900+ players. This project allowed me to gain an understanding of how to efficiently problem solve, especially as I was very new to programming.

Portfolio— *Personal Developer Portfolio*

This was another individual project that I initiated in order to challenge myself with a front-end application, and to be able to display other projects I am also working on. Feel free to check it out at: https://benmeneghini.me

enabled me to gain leadership experience within a fast-paced environment, and taught me valuable ways to handle stressful situations at hand.
